

New Hampshire Pediatric Dental Attestation

I acknowledge that my health plan coverage provided by Minuteman Health (the "Health Plan") DOES NOT include coverage for pediatric dental services. Pediatric dental coverage is one of the essential health benefits that are generally required to be included in health plan coverage according to the Affordable Care Act.

By signing this statement, I am attesting that I understand and acknowledge the following:

- The Health Plan that I am purchasing DOES NOT include coverage for pediatric dental services.
- Because the Health Plan that I am purchasing does not include coverage for pediatric dental services, the Health Plan does not include all essential health benefits.
- **The failure to purchase coverage that includes all essential health benefits may have tax consequences for me.**
- There are exchange-certified, stand-alone dental plans available for sale on the Federal Marketplace (the "exchange") and off-exchange.
