

COMPLIANCE CORNER

Protecting Sensitive Information with Encryption

Nation Technologies Group, Inc. (NTG) launched RYN™ Beta, a new and free cloud-based software encryption service for professionals and individuals that are concerned about securing their most sensitive digital assets. RYN™ allows users to encrypt any electronic information, designate retention periods and specify access controls while also meeting federal and global compliance guidelines.

RYN™ encrypted files enable individuals and businesses to share sensitive digital information securely by using conventional email services for delivery. It is so simple to use that if you can attach a file to an email, you can use RYN™ Beta.

The mission is to stop cybercriminals from profiting from the theft of trade secrets, medical records, financial documents and other sensitive information and provide people with peace of mind. "It is our civic responsibility in this time of cyber warfare to help everyone protect their sensitive digital assets from cybercriminals," said Ron Nation, CEO of NTG . "Cybercriminals are threatening the very core of our businesses, as well as, the personal and social wellbeing of everyone impacted by this epidemic."

ACA Update

With all the political updates coming out of Washington, D.C. these days, many employers are not sure about current requirements for 2017 ACA Reporting. ALL reporting obligations for 2017 currently remain the same as 2016. When any new laws are finalized, we will be the first to let you know.

COMMUNICATING WELLNESS

FIGHT THE FLU - It Starts with You!

Flu season is right around the corner and now is the time to remind employees and schedule onsite shots. Vaccinations can be offered to family members if you like, including: spouses, children and parents. Onsite services are available at no cost to employers through our partnership with P3 Medical. They provide nurses and administrators to handle the event and accept most types of insurance as full payment.

Please contact Dave Gentry or your Account Manager to coordinate services.
DaveG@FBPlans.com (407) 960-7733.

CONSULTING SERVICES

Benefits of Telemedicine

Have you ever asked yourself why you or your children get sick after hours and on weekends? It seems like "Murphy's Law". Doctor offices are closed and you're not wanting to use the Emergency Room... but you need relief from pain or medical concerns.

Telemedicine programs are available on a stand-alone basis and through some medical insurance plans. Benefits of telemedicine include: 24/7 Access, lower cost, potential for quick diagnosis and treatment, and second-opinions.

COMMUNITY SERVICE

Do I need Flood Insurance?

Flooding can be caused by many sources including heavy rains and hurricanes. While certain areas are prone to flooding and there are flood zones, all it takes is a few inches of water to cause major damage. According to the Federal Emergency Management Agency ([FEMA](#)), floods are the #1 natural disaster in the United States.

As we pray for those in Texas and Louisiana affected by Hurricane Harvey, we should ask ourselves: "Am I prepared?" Homeowners Insurance does NOT typically cover floods. Separate Flood Insurance is available and can be purchased (beforehand) through a property and casualty agent or through the National Flood Insurance Program. The cost depends on the amount of coverage and your property's flood risk. To help identify your community's level of risk, you can refer to the National Flood Insurance Program (NFIP) for [flood risk maps](#).

CEO CORNER, Doug Foreman

September is here. Children are back in school and Florida is ready for some relief from the blazing heat and humidity we experienced this Summer. Let's keep telling ourselves: "Fall is just around the corner!"

As we send this monthly "Hello" to you, we'd like to thank you for the opportunity you give us every day to partner with you on your company's employee benefits. We appreciate the trust you place in us, and we will continue to work hard to earn it. Remember that we are here to take as much of the burden off your shoulders as possible to make benefit administration hassle free.

"Learn from yesterday, live for today, hope for tomorrow." - Albert Einstein
