

*When our provider denied coverage of our claim, Drexel Mixson of Drexel and Associates, tirelessly represented us, fought for our rights and successfully argued our case for this expensive and critically necessary prescription. He persevered, through seemingly endless red tape, to reach the upper management of our insurance provider. Drexel personally kept in touch with me throughout the entire process.*

*In short, over 30+ years of professional life, I have never witnessed a higher degree of commitment, determination and dedication than we have experienced with Drexel & Associates. This type of personal care is unheard of in the medical insurance industry. My wife and I were treated as truly valued clients, not just a claim number. To say that Drexel Mixson has our sincere appreciation and that Drexel & Associates has our unending patronage does not begin to express our feelings. Thank you, Drexel! Your company sets the standard that few can claim.*

*Respectfully yours,*
