To Whom It May Concern:

I am very pleased to write a letter of recommendation for Drexel Mixon. I have worked with several health care insurance companies over the years. Drexel has finally given our company an opportunity to provide all of our employees with affordable health care coverage.

In these times when laws and policies are constantly changing we are grateful for his services. In addition to his knowledge and dedication in helping our company to stay in compliance with all the latest rules and regulations, our health care cost has dramatically decreased. Drexel is also committed in helping each individual employee with their specific needs and concerns.

In closing, I would like to add that Drexel would be a tremendous asset to any company seeking to acquire affordable health care for their company.

Sincerely,

Robyn Ward
